VÆRKSSTED

ETJUNKIT STEDS

An aerial photograph of a body of water, likely a harbor or bay, showing intricate patterns of light and dark blue waves. A dark, semi-transparent rectangular box is centered horizontally and vertically, containing the text 'HAVNEN I BRUG' in white, bold, sans-serif capital letters.

HAVNEN I BRUG

LEGE- KAMMERATER

MILJØET ÅBNES OP

FOR BEGYNDERE
& EKSPERTER

A photograph of three people smiling in a workshop. On the left, a man with short blonde hair and a beard, wearing a white t-shirt and a dark vest, is laughing. In the center, a woman with short dark hair, wearing a white t-shirt and blue overalls, is smiling. On the right, a man with curly reddish-brown hair, wearing a dark jacket, is smiling. The background is a yellow wall with a sign that says 'DON'T TOOLS' in large, blue, hand-cut letters. A blue hand saw is mounted on the wall between the words. The scene is lit with warm, indoor lighting.

CONCEPT

The starting point of our concept is to connect the people of the Drones at Västana with the outside world. Light, sound and movement are the leading forces around in the temporary environment of the Drones.

The sound of the inside is transformed to light on the facade of the dome. The first part is created by the sound from the speakers and the second part is a light sensor that reacts to the sound waves. The second part is a light sensor that reacts to the sound waves. The second part is a light sensor that reacts to the sound waves.

The light will be placed in a grid on the wooden beams of the facade. They can be seen from the inside.

THE SPEAKING HELMET

Design the SPEAKING HELMET and see how you can use it to interact with the light on the facade of the Drones. Your work will be displayed in the Drones as a new sound, something of a kind.

THE SOUND HELMET

Outside the SOUND HELMET you will see four speakers in the area around the Drones. The speakers are in the area around the Drones. The speakers are in the area around the Drones. The speakers are in the area around the Drones.
