Venstres Ungdom (2006-2008)

## PROFESSIONAL PROFILE

As the Mayor of Employment and Integration and Chairperson of the Employment and Integration Committee, I am responsible for the tasks of the Municipality of Copenhagen related to employment efforts, social welfare benefits, and cross-cutting integration.

My focus is on ensuring high employment rates in Copenhagen. Copenhagen, as well as the entire country, needs as many people as possible to be part of the labor market, and I believe that we should collaborate with businesses to assist them in obtaining the workforce they require. This includes attracting and retaining international labor and incorporating individuals who are currently outside the labor market, such as people with disabilities.

Furthermore, we must prioritize integration in Copenhagen, and I personally have a special focus on displaced Ukrainians in Copenhagen and our collaboration with Kyiv as a sister city. Copenhagen should be a place where everyone who wishes to be part of our society can find a place, but we must dare to set expectations and be clear about the demands we make. We must combat social control and parallel societies, and we should never compromise on the values we share.
