

USER GUIDE

I'M MOVING TO COPENHAGEN - WHAT DO I DO?

When you move to Copenhagen, usually it is the moving company who applies for the permit.

If you are moving with your own vehicle, then one of two conditions can apply:

1. If the vehicle used, has a permissible total weight of more than 3.500 kg, then you must seek permission for 'råden over offentligt vejareal'/'right to the street' and follow the instructions bellow
2. If the vehicle used, has a permissible total weight of less than 3.500 kg, e.g. like a car, van or small truck/lorry, then you don't have to seek a permit, but the vehicle is subject to applicable rules for parking, stopping, unloading and loading etc. This is administered by the Center for parking. Questions regarding parking can be directed to parkering@kk.dk. You can find more information on their website here: [Public parking in Copenhagen | International.kk.dk](https://www.kk.dk/en/public-parking-in-copenhagen)

If the vehicle used has a total weight of more than 3.500 kg you must apply for a permission to 'råden over offentligt vejareal'. If you have a "MitId", you can apply for a 'råden over vejareal' on our website: [Søg tilladelse til råden over vejareal | Københavns Kommune](https://www.kk.dk/en/apply-for-permission-to-use-public-parking).

If you don't have a "MitId", the City of Copenhagen can issue a permit. To get a permit you must contact us on gravetilladelser@kk.dk.

If you get a permit, please note that

1. The permit only concerns a specific location
2. To make sure that the specific area is kept free, authorized traffic signs must be placed 24 hours, before the truck arrives.
3. The location must be photographed for documentation. Registration numbers of any parked cars must be noted. All documentation must be sent to the Danish Police. The form, which include instructions (in Danish), can be found on our [website](#).
4. We strongly recommend that you contact a company specialized in road safety (paperwork, permits, signs etc.). You can find a company specialized in road safety by searching for a 'afspærringsfirma'.
