

TOMORROW

appendix to application to City of Copenhagen

An aerial photograph of a lush green landscape. A winding river flows through the scene, surrounded by dense vegetation. There are several dark, irregular patches scattered across the green field, possibly representing water bodies or different types of terrain. The overall scene is vibrant and natural.

Tomorrow's vision

TOMORROW is a distinct and unifying point of departure for everyone engaged in how we act to make our world sustainable. Collectively and individually. Always with science as the point of departure and a thriving future as our common destination.

We are the citizens, the young, the progressive forces, the forward thinking companies, the universities and the organizations.

TOMORROW is about changed behaviour. Born in Denmark, rooted in the world, shaping the future.

Tomorrow's mission

The challenges ahead cannot be overcome alone.

TOMORROW believes in the necessity of partnerships across sectors, silos, functions, beliefs and conventional divides. Time is a luxury we cannot afford, we invite you to get involved.

TOMORROW is focused on translating the Sustainable Development Goals into concrete actions that everyone can incorporate into their lives.

Tomorrow festival and Covid19

In light of Covid19 and the current challenges around large gatherings, TOMORROW is working with our partner Good Boys Agency as well as the convention and event department in Wonderful Copenhagen for updates, safety guidelines, crowd control measures and advice for organizers.

The following pages (in Danish) illustrate the alternatives should there be any Covid19 restrictions in September 2021.

Pladsen

Normalt festival-setup

Vers. 1

Denne pladstegning kan eksekveres hvis corona forholdene er på et minimum

Pladsen - Corona resistent

Zoneopdeling og cirkulært flow

Vers. 2

Denne version kan eksekveres med et corona-forbehold på 1 m. Afstand og samlet 500 pax pr. Forsamling

Pladsen - Corona resistent

Venues fordelt over byen

Vers. 3

Denne version kan eksekveres med et forsamlingsforbud på maks 100 personer

Pladsen - Den virtuelle

Pladsen laves virtuelt

Vers. 4

Denne version kan eksekveres uanset hvad

Pladsen - Corona resistant

Zoneopdeling og cirkulært flow

Vers. 2

Denne version af pladstegningen er stort set den samme som vers. 1. Den store forskel er dog at alle elementer/områder (markeret med pink) er afskærmede og disse områder kræver tidsbooking og er begrænset til 500 mennesker. Derfor er der indgangstjek og fast flow rundt i hvert område.

På hele området er der faste ruter rundt, dvs. Alle veje er cirkulære og ensrettede så menneskemængdernes krydsfelter kan styres og der derved er minimum fysisk kontakt blandt publikum. Dette er illustreret med pile.

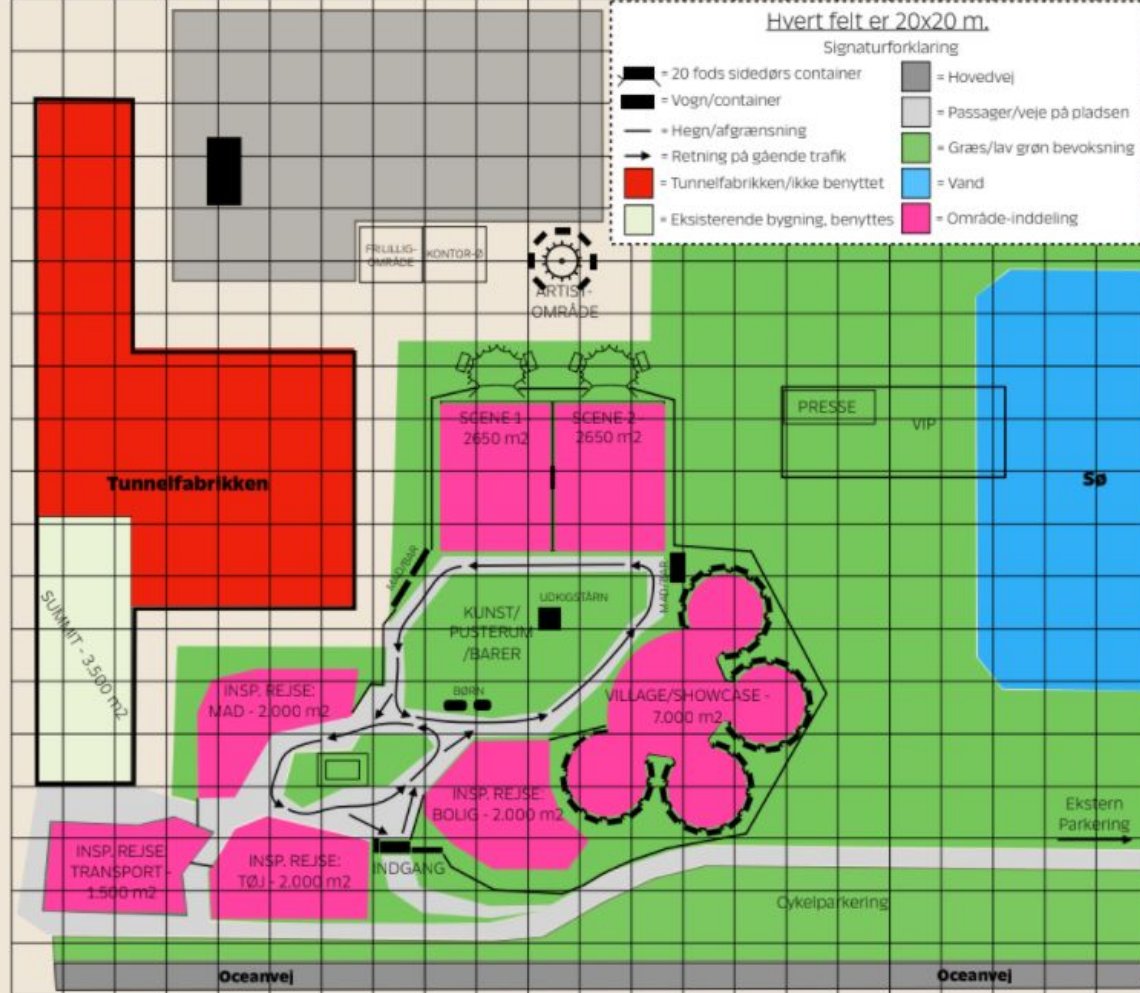

Fordeling af mennesker:

- Insp. Rejse Mad = 500 pax
- Insp. Rejse Transport = 500 pax
- Insp. Rejse Tøj = 500 pax
- Insp. Rejse Bolig = 500 pax
- Village/Showcase = 2x500 pax
- Scene 1 og 2 = 2x500 pax

Områder total = 4.000 pax
Gangarealer og pusterum = 1.000 pax

I alt antal personer = 5.000 pax

Denne version kan eksekveres med et corona-forbehold på 1 m. Afstand og samlet 500 pax pr. Forsamling

Pladsen - Corona resistent

Venues fordelt over byen

Vers. 3

På denne version af Tomorrows plads fordeler vi inspirations rejserne, village/ showcase og scenerne ud over hele byen. Hvert område vil have hvert deres tema ligesom ved Tunnelfabrikken.

Der vil på hvert område også være en videoproduktion, så der kan live-transmitteres fra hver have udover der kan vises materiale fra de andre venues.

Der vil laves omkring 10 venues fordelt over hele byen på forskellige størrelser. Dog vil maks kapaciteten alle steder være 100.

- 10 venues á 100 pax pr. Seating
- 3 seatings om dagen
- Fordelt over 2 dage

10x100x3x2 = 6.000 pax fordelt over 2 dage

Denne version kan eksekveres med et forsamlingsforbud på maks 100 personer.
