Kort projektbeskrivelse som forelægges udvalget uredigeret
Micro-Workshop is an initiative wherein 3 composers are selected through an open call to workshop their fresh, embryonic ideas with NEKO3. It consists of two workshops, an individual development period, and a final rehearsal period and concert where the works are presented in front of an audience together with a panel discussion and dinner. We seek support specifically for the final concert period where we will present the three works made in collaboration with the Micro-Workshop 25 selected participants Severin Dornier, Carmen Kleykens Vidal and Tuce Alba x Maf.
