04.05.2024 - 01.06.2024

A shipment containing hundreds of boxes of materials, many of which contained works, often seemingly incomplete and undefined works, arrived at my studio. It was sent from England after discovering that my father had been producing artworks, unbeknown to me, for several decades. Boxes containing disparate works, his and others, documentations and disintegrations.

A new publication *Dataton Dialogues* (published by Mount Analogue, 2024) by Tris Vonna-Michell, Silje Iversen Kristiansen, Henrik Folleso Egeland and Anna Clawson will be launched at the opening.
