

भारतीय राजदूत
कोपनहेगन

AMBASSADOR OF INDIA
COPENHAGEN

06 August, 2018

Dear Mr. Niko Grünfeld

Government of India plans to celebrate the 150th Birth Anniversary of Mahatma Gandhi on 2nd October 2018 in a befitting manner. One of the initiatives to celebrate the event is by creating a LED projection on the facade of a wide-surfaced building in cities across the world. The projection will consist of 8-10 slides, drawing from important events from Gandhiji's life as well as messages which are relevant in the contemporary world.

2. The Embassy of India is trying to identify an iconic building or monument in Copenhagen, which should be a prominent tourist attraction so that the projection can be viewed by a large number of people. The building should have wide surfaces, and therefore arches and gates are not preferred. The building should also be available for the LED projection in the evening of 2nd October, 2018.

3. I will be grateful if your esteemed Office could assist the Embassy of India in ascertaining a suitable building in Copenhagen where such an LED projection could be organised. I would be grateful if you could provide some feedback by evening of 8 August, 2018.

Regards,

(Ajit Gupte)
