

Legend

- Inside this Area EK -0.50
- 18 Hole Course Over 1.20 Meters from 0.0 Elevation
- Approved Areas. Ron Kirby to direct Grading to be built up and tie into Existing Stadium edges

• 18 Hole Contour Interval Note
Elevations of Proposed Grading is 0.50 contour interval. However, detail areas may also utilize 0.25 contour interval.

Controlled Access Points

- Plan Notes*
- In order to create a World-Class (International) Golf Course venue the Earthwork Shaping and / or Forming of all golf course corridor features is critical.
 - Due to site characteristics large volumes of Imported fill material is required in order to build a World-Class (International) Golf Course venue.
 - Proposed elevation of golf course corridor grades is critical for establishing and maintaining a quality playing turf condition. Elevation of golf corridor grades is also important for creating a proper catch basin style drainage system which is required of a World-Class (International) Golf Course venue.
 - Golf Course Architect, Ron Kirby and Associates, intend to manage and / or direct all earthwork related processes to include future earthwork import material needed, shaping of all golf course corridor features, finish all golf features, flexibility to make field adjustments as needed is critical for delivering the best Golf Course Design possible.
 - This plan offers a graphical representation of Ron Kirby's design intent for a new golf course. Ron Kirby will direct all aspects of the project as needed to realize the goal of creating a World-Class (International) Golf Course venue in Copenhagen, Denmark.
