SEE GIRLS (2) soloshow, 2022,
ERGO Collective, Athens, Greece

So it's still under my bedroom
And then there was this one
more stone, it was so big that
I had to dig it out
and put it
out of place

She is sitting between
some stones

Someone is coming over
and saying something she
can't hear

At first, she just sees the
mouth move,
red, round, and remarkable

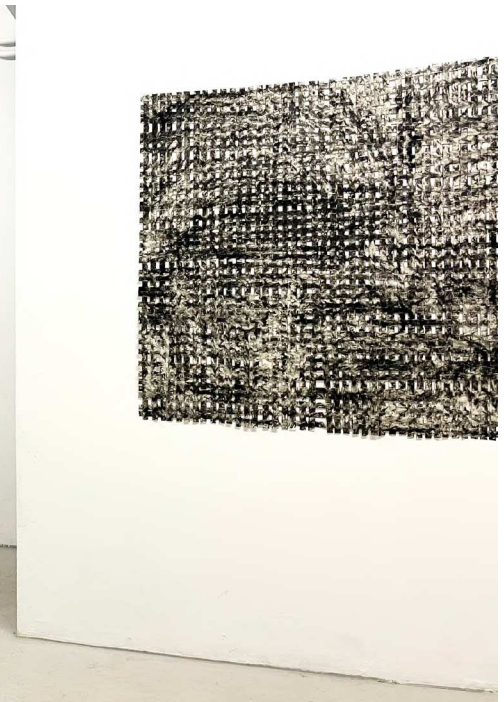

Then his voice becomes
clear
He is saying something
about the stones

It's nice the way the
stones lie out here

Under my bedroom floor, there
were two stones that we got out
and placed in various places
in the garden

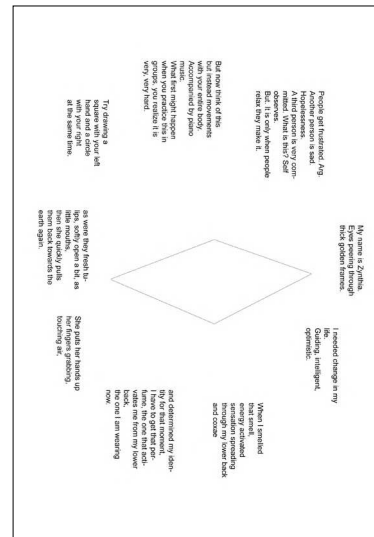

We moved the floors and when
we were digging under the
floor, we occasionally came
across big stones.
They were happy to get up in
the air, instead of lying around
under the floor.

Many of the stones have been
moved as they were
of our house in various places
