Kort projektbeskrivelse som forelægges udvalget uredigeret
For Pride Art Copenhagen 2023 I propose two new artworks under the name "Hymn for Selene" "Hymn for Selene" is a diptych consisting of a lenticular print and a participatory performance. Both works depart from the queer body as vessel for transformation, and invite guests to consider their own bodies as perceiving, sensing existences with capacities for transformation. "Hymn for Selene" is a performative gesture that references magical rituals, rebirth ceremonies, and investigates the queer body as a transformative agent. This work positions the role of the queer body in society as witch, as magician, as catalyst, as activist, as rebel - and as goddess. Currently we are in desperate need of solidarity and collective strength, as discrimination gains momentum across the globe; I wish to host a moment of connection between queer individuals, our allies and future friends, to hold each other up, and perhaps transform some perceptions.
