

I am applying for support to realise a solo exhibition by Zoltan Ará at Vermilion Sands in Copenhagen from 07.10.2023 - 04.11.2023.

Zoltan Ará is a Danish born artist, poet and chef of Kashmiri Heritage. Ara's multidisciplinary practice investigates the racialization of the natural world, monotheistic religion, intimacy, and ideas and experiences of life and time and geopolitics. Their installations, sculptures, performances, and poetry often draw from their family history as well as their encounters with social class and queerness. Ará will produce new series of sculptures and video works for the exhibition.

A text will be written for the exhibition by Fred Moten an American cultural theorist, poet, and scholar whose work explores critical theory, black studies, and performance studies.
