

## SIGNATURFÖRKLARING

Figure 1: Schematic representation of the experimental design. The diagram shows a flow from 'Stimulus' to 'Response' and 'Reaction time'. The 'Stimulus' section includes 'Visual' and 'Auditory' inputs, with 'Visual' further divided into 'Visual feedback' and 'Visual feedback delay'. The 'Response' section includes 'Response' and 'Response delay'. The 'Reaction time' section includes 'Reaction time' and 'Reaction time delay'. The 'Response' and 'Reaction time' sections are connected by a 'Response delay' box. The 'Reaction time' section is connected to the 'Response' section by a 'Reaction time delay' box. The 'Response' and 'Reaction time' sections are connected by a 'Response delay' box. The 'Reaction time' section is connected to the 'Response' section by a 'Reaction time delay' box.
