Letter of Recommendation for Stine Hansen

3rd December 2024

To whom it may concern,

I am pleased to recommend Stine Bang Hansen, a former student in the Photographic Arts program at the University of Westminster. As her lecturer, I have closely observed her development as a photographer and artist. Stine consistently demonstrated exceptional technical skills and a deep understanding of visual storytelling. Her work is marked by originality, thoughtfulness, and a keen eye for detail.

Stine is an innovative and driven individual, constantly pushing the boundaries of her creative practice. She approaches every project with both passion and intellectual curiosity, producing work that is visually compelling and conceptually rich. She also exhibited a strong ability to collaborate, offering valuable insights and contributing positively to group dynamics.
I have no doubt that Stine will continue to produce outstanding work in her field. She possesses the dedication, vision, and professionalism necessary to succeed. I highly recommend Stine without reservation for any future endeavour she chooses to pursue.

Yours sincerely

Rachel Cunningham
Course Leader, Senior Lecturer in Photography
