| <p>Projektets overordnede formål I wish to apply for a grant to enable me to experiment at a more extended level with bronze casting for a current project and to visualise it into an ambitious installation taking space into play.</p> <p>Resumé af projektbeskrivelse With a new series of sculptural works, I wish to reflect on the concepts of memory, time and vanity or Memento Mori. My recent works are grounded in the fascination for classical sculptures with sensual poses and draperies and a vivid sense of tactility and movement. I intend to explore variations of the same forms thought different states of fragility. From the extreme vulnerability of the object in porcelain, fabric or paper to the more eternal and solid version or interpretation of the same sculpture, in bronze. The result will show several sculptures taken at different level of vulnerability and fragility. The series will support a visual meditation and impose a reflection on our finitude and our relationship toward a collective cultural mythology.</p> |

| <p>Projektets aktiviteter: The current project will constitute the centre of an upcoming solo exhibition. A selection of sculptures will also be shown in several group exhibitions: One of the group exhibition "In a slow manner" will take place in Augustiana Kunsthal and Kunstpark in Sønderborg (DK) from May 2022. Mål: I would like to develop a professional and engaged relationship toward the actual artistic creation and support with my personal input a dialogue about the existing aesthetic and philosophical concerns. I wish to extend my field of experimentations and meet new challenges. Make strong, ambitious and meaningful artworks.</p> |
