

Huset is pleased to offer Newman Allen and Carol Hayes a Xenon Residency from 27th February - 4th March 2023. Xenon Residency is a concept, where Huset gives selected artists the opportunity to take over our black box stage Xenon and surrounding areas for a week to create a cross-artistic performance.

Newman and Carol will act as curators for **my site | in space** - working with emerging and established artists from a range of disciplines to explore Huset in an experimental, interdisciplinary and site-specific way. The residency will culminate in public performances at the end of the week.

During the residency the team will have full use of the venue free of charge, including technical assistance from Huset for the performances. We're looking forward to working with them.

A handwritten signature in black ink, appearing to read "MS".
