

TRAILERPARK I/O

ART, MUSIC AND TECHNOLOGY

UNFOLDING THE WORLD OF ART, MUSIC, DESIGN AND TECHNOLOGY

We are thrilled to introduce Trailerpark I/O - a natural progression of the Trailerpark Festival concept, unfolded as a new daytime lineup of talks, exhibitions, makerthons, hackerthons and innovation labs.

So what is I/O all about?

Trailerpark I/O stands for Input/Output and symbolises the discovery of technology, creativity and human interaction. We bring together rebels from multiple and diverse artistic and digital landscapes, to explore technologies, co-create radical solutions, showcase new talents and share ideas. Oh, and of course have a lot of fun together.

I/O PARTNERS

PRACTICAL INFO

Who we play with

Trailerpark I/O gathers thinkers, movers, makers, hackers, startups, designers, artists, producers, developers, techies, researchers, investors, entrepreneurs and other curious souls. Together we will become an integrated part of the Trailerpark Festival through; hackerthons, makerthons, design sessions, exhibitions, talks, pitches, screenings, gaming and much much more.

**Copenhagen Skatepark
Enghavevej 80, Copenhagen SV
Friday July 31, 2015
9am - 5pm**

MAP OF AREAS

Royal stage

The biggest stage of the festival. Inside Copenhagen skatepark. This year Obscura is doing the scenography so expect nothing but crazy. The stage will facilitate all Trailerpark I/O talks.

Soundvenue stage

The outdoor stage is a big round tent in the middle of the festival ground. It's our second biggest stage and will be the place for music hackathons during Trailerpark I/O

KBH Volume

Right by the entrance is KBH Volume, an old concrete building with a really high ceiling and huge windows. KBH volume will be housing our workshops.

Copenhagen skatepark expo

A big area inside the skatepark is devoted to three interactive exhibitions where you can touch and feel, test and try, play and engage with installations

Rebel stage

Our DJ stage outside the Skatepark will during the day host video screenings with exciting scenography.

Food area

Just around the corner from the entrance is the food area. Here various food trucks will be serving delicious meals throughout the day, its also here our concept talks will be held.

CREATIVE MORNINGS

What
Creative mornings will true to their concept facilitate a series of short talks in the morning where they invite inspiring speakers from their community.

Who
Creative Mornings is a breakfast lecture series for the creative community. The concept is simple: breakfast and a short talk one Friday morning a month in 157 cities around the world.

When
10.00-11.00

Where
Royal Stage

Link
www.creativemornings.com

TECH BBQ

What
In the spirit of Tech BBQ the Trailerpark I/O audience will have the opportunity to grab a nice meal from the street food trucks and enjoy a series of short fascinating talks from the most inspiring people in the Tech BBQ community.

Who
Tech BBQ is an annual party and conference that celebrates the Copenhagen ecosystem of startups. Produced by Trendsonline.

When
13.00-14.00

Where
Royal Stage

Link
www.techbbq.dk

PECHA KUCHA

What
Pecha Kucha will host their 20x20, a simple presentation format where they show 20 images, each for 20 seconds. The format keeps the presentations short and sharp.

Who
Pecha Kucha Night, now in over 800 cities, was devised in Tokyo in February 2003 as an event for young designers to meet, network, and show their work in public.

When
16.00-17.00

Where
Royal Stage

COMMUNITY
SESSIONS

YOKE STUDIO & MENS DU SOV

What

Mens du sov is a project about the Danish graffiti culture. For Trailerpark I/O they've teamed up with YOKE to present their work in an interactive way. With Yokes technology you will be able to spray their pictures on to the wall.

Who

YOKE is a Copenhagen based design agency founded in 2008 by Jesper Harding, Steffen Kirkegaard Winther, Lars Jessen, and Jakob Mandøe Nielsen.

When

11.00-11.30

Where

Tba

Links

www.yoke.dk
www.mensdusov.dk

DARK MATTERS

What

Dark Matters will contribute with their latest international film project "Skammekrogen". An interactive story taking place at a dinner party where the festival guests will wear Oculus Rift and experience film in a surrealistic way.

Who

Working with video projection, light, and installations Dark Matters operates at the intersection of architecture, scenography, design, and art.

When

12.00-12.30

Where

Tba

Link

www.darkmatters.dk

PABLO SERRET DE ENA

What

Pablo will build an installation made out of industrial fans and confetti flying around in an endless stream of air. From the outside the trailer looks just like a normal old and trashy trailer, but as soon as you enter it you will experience something completely different.

Who

The Spanish artist is known for his colourful art installations where he seeks to mix art and technology. He loves confetti and how machines can blow live into art.

When

13.00-13.30

Where

Tba

Link

www.pabloserretdeena.es

INSTALLATIONS

HEIDI & HERMAN & AJUKREIZI

What
The two artists Heidi & Hermann will build and design an interactive trailer for Trailerpark Festival 2015. Experience sounds and visions inside the trailer where small interactions in realtime will result in music and soundscapes.

Who
At ajukreizi, digital and creative forces clash in a team of highly specialized and dedicated folks. They cover all areas from User Experience and Interaction Design to concept, app and web development.

When
14.00-14.30

Where
Tba

Link
www.ajukreizi.dk

BOBBY ONLY

What
A graphical composition will be painted on a 4x2 meter wall that will enable festival guests to play music simply by scanning the wall via an app. Guests can also modify the music by rearranging the graphical compositions in a through-out interactive installation.

Who
The two designers, Marta Feber and Louise Foo love interactions with music and building installations with strong graphical compositions in Copenhagen and New York.

When
15.00-15.30

Where
Tba

Link
www.bobbyonly.com

OBSCURA

What
The creative group Obscura will be joining us with installations that are not confined to a rectangular screen. Last year they used their trademark triangles to create some stunning lighting effects and projections on the Royal Stage.

Who
Obscura does visuals and video scenography for all kinds of live events. They transform a whole room using a number of small video projectors that point directly to the walls and sometimes the ceilings and floors too.

When
16.00-16.30

Where
Royal Stage

Link
www.obscura.dk

SOUNDVENUE

What
Soundvenue will facilitate the outdoor stage and the music hacks around it. Soundvenue will also write 6 articles in the preface about the future of technology.

Who
Soundvenue is a media with focus on music, fashion, film and technology. They have strong roots in the urban scene of Copenhagen both offline and online.

When
09.00-17.00

Where
Soundvenue Stage

Link
www.soundvenue.com

VICE

What
VICE and The Creators Project will cover the unique stories around the Trailerpark I/O event through video. During the day they will also host a video screening featuring the best art and technology stories they have created last year.

Who
The Creators project is a part of VICE, this platform features the works of visionary artists across multiple disciplines who are using technology to push the boundaries of creative expression.

When
14.30-15.30

Where
Tba

Link
www.vice.com

ROCKET CAST

What
Rocket Cast will facilitate a live podcast session at Trailerpark I/O, interviewing the most interesting people from the community. They will talk about the interactive installations and how they could change the way people see “technology”.

Who
Rocket Cast is a Danish podcast where Nikolaj Rasmussen and Esben Hardenberg talks about technology, tech news, music and culture.

When
15.30-16.00

Where
Tba

Link
www.rocketcast.dk

MEDIA

MADE FESTIVAL

What
MADE Festival will facilitate an exhibition featuring 5 of the best interactive installations from the Danish maker community throughout the years.

Who
MADE Festival is a brand new D.I.Y. festival for technology, design and crafts. MADE celebrates the maker culture and the D.I.Y. trend as well as innovation and creation.

When
09.00-16.00

Where
Copenhagen Skatepark

Link
www.madefestival.dk

CIID

What
CIID will present and host an exhibition featuring the works of this years students. The work is focused on interactive products and how everyday life is affected.

Who
CIID is an international hub of creative minds. They create impact through the design of innovative products, services and environments for international students.

When
09.00-16.00

Where
Copenhagen Skatepark

Link
www.ciid.dk

CIRKUIT CIRKUS

What
The students will facilitate a playground of interaction with art and technology that pushes you into a world without screens. Here you must play, dance, collect and direct with the computer yourself.

Who
An ITU based student art collective who have gathered in the name of interaction design and technology to facilitate and create an interactive exhibition together with Trailerpark 2015.

When
09.00-16.00

Where
Copenhagen Skatepark

Link
www.itu.dk

RUC FAB LAB

What
RUC Fab Lab will facilitate a makerthon working with LED lights. 20 Festival guests can sign up for the makerthon in advance. The sessions is an introduction to controlling LED lights where the outcome of the makerthon will be wearable.

Who
RUC Fablab is an experimental research and learning environment in building 4 at Roskilde University, consisting of an open fablab, rapid prototyping laboratory and digital production workshops.

When
13.00-16.00

Where
KPH Volume

Link
www.rucfablab.dk

FOUNDERS HOUSE

What
Founders House will participate in a design thinking workshop. Today's services are build around a screen interface but how would the world look and feel if tech became more invisible and more integrated in existing, physical objects?

Who
A shared invitation-only workspace for ambitious technology startups and experienced tech entrepreneurs. They like to see it as a tribe of startups building companies side by side and helping each other succeed.

When
13.00-16.00

Where
KPH Volume

Link
www.foundershouse.dk

KPH PROJECTS

What
How can we address today's global health challenges through simple design, interaction and technology. Kph Projects will participate in a Design Thinking workshop and present prototypes at the end of the day.

Who
A community for innovative startups and small businesses in growth. In KPH they work to improve communities and businesses, organizations, and associations that can fit in KPH dealing with, respectively, social, cultural or environmental objectives.

When
10.00-13.00

Where
KPH Volume

Link
www.kphprojects.dk

HACK BEAT

What

HackBeat is facilitating an open workshop allowing you to participate and play within the realms of music and technology. Guests can join an 'open jack jam' with their own devices, or play with some of the interactive installations set up by the community members.

Who

HackBeat is an open community and an ongoing workshop about hacking music, playing and prototyping and creating something new. Focus is on innovation and disrupting current music technology trends.

When

09.00-17.00

Where

Soundvenue Stage

Link

www.hackbeatcph.dk

COPENHAGEN MUSIC MAKER SPACE

What

Copenhagen music maker space will facilitate a music hack, where you spontaneously can join in and build your own instrument. There will be all sorts of old toys, radios and other stuff that can be turned into an instrument by your creativity.

Who

Copenhagen music maker space is an open workshop where you can build your own soundmachines and electronic instruments, or modify and qualify existing equipment in a space at Blågårdsgade where there is room for learning, fellowship and great artistic experiments with sound and music.

When

11.00 - 17.00

Where

Soundvenue Stage

Link

<https://www.facebook.com/cphmusicmakerspace>

MUSIC SESSION

TALPA TIVA

What

An interactive concert experience. The aim is to challenge the usual concert experience through interactive technology, improvisation-games and virtual reality.

Who

Talpa Tiva is a Danish duo traveling around the countries festivals in a Camp-let making short improvised electronic concerts in headphones.

When
13.00-14.00

Where
Tba

Link
www.talpativa.dk

ART LAB

What

Artlab will facilitate a Laptech Jam. Plug in, synch up, play out (loud)! At Laptech jam you play music together with others through your laptop, ipad, iphone, hacked music device, circuit bended toy or anything else with a digital output. Two Jam hosts will guide you through.

Who

Artlab is run by the Danish Musicians Union in cooperation with the Danish Actors Association. They develop study labs, training programmes and projects aimed at strengthening artist's individual possibilities to take action, cooperate and develop new platforms for their art in a changing society.

When
15.00-16.00

Where
Tba

Link
www.artlab.dk

DJ JOHN VINCENT AND DJ GRADED

What

At I/O these two boys will be behind the decks combining their styles in a back2back-set, mixing through the corners of Hiphop and everything funky. Come and have a look at their technique which is gonna be filmed from above and projected on a big screen. We want to show how technical it really is to be a good DJ.

Who

John Vincent and Dj Graded are two DJs with crazy technical skills. Graded has proved this numerous times by winning the Danish DMC four times in a row, and reached number 5 and 6 at the DMC World Finals. JV has a great love for HipHop and today he lives out his passion as a DJ and producer.
