

Dear Sir/Madam,
11th June 2023

Building Network for the New Generation through the use of Music, dance, drumming and fellowship.

Background

In our effort to build a society that each and everyone is independent and self driving, we have created a nation of lonely individuals. This we can explain from individuals finding it difficult to ask for help even when their next door neighbour has their need and they can not ask for help. There are many examples and reason of not well connected network in our society today. This is the background that gave Stanley Adjeiquaye's Ministry the need to develop this project.

What is it
