Kort projektbeskrivelse som forelægges udvalget uredigeret
<p>The Collaborative Music Show is a musical project conceived and implemented by two professional musicians with decades of experience. It aims to bring music and community engagement together by utilizing public playgrounds in the city. This project seeks to create a vibrant and inclusive environment where people of all ages and backgrounds can come together to celebrate music, creativity, and social interaction. The project takes advantage of the existing public playground spaces in the city, transforming them into vibrant music venues. The compositions are original pieces composed by Francesco Colocci. The musicians offer dynamic versions of the pieces by including the use of different instruments and improvisation as a key element of the performance. The Collaborative Music Show presents artistic innovation through its emphasis on improvisation and interaction with the audience. These elements elevate the musical experience and create a dynamic, participatory atmosphere that sets the project apart from traditional music performances.</p>

Formidling af projektet
<p>The project will be carried out in collaboration with the staff working in the playground. Events will be disseminated to concert venues through printed materials. The initiative leverages social media and digital platforms to spread awareness about the events. Engaging content, videos, and live streaming of performances can attract online audiences, including those who may not physically attend but appreciate the music and its impact. The events will also be placed on Kultunaut.</p>
