

DYSTOPIAN NIGHTS 2023

"Dystopian Nights" thrives in Copenhagen's underground scene, offering a unique show that blends contemporary music, improvisation, harsh noise, and electronic music, creating an inclusive and unexpected evening of art. The platform welcomes all styles, inspirations, and art forms that are unusual or outside the mainstream, catering to innovative, dynamic individuals who push the boundaries of traditional art. It fosters a community that prioritizes people before artists, working together to realize common goals without compromising artistic freedom and enjoyment.

But especially, Dystopian is a community of people before artists who work together to realize a common goal with no compromises, enjoying every moment along the way.

"Dystopian Nights" actively seeks new artists, embracing every alternative project regardless of age, social background, or gender. Throughout the years, the show has collaborated with other local alternative realities, such as NoFigure, SuperNoise, Absolute Music, PRIMI, The Community, fostering a network of forward-thinking creatives and art enthusiasts. The showcase features high-level music and interdisciplinary art forms, including audiovisual and performance art.

To celebrate their activity and network, the team of enthusiastic volunteers plans to organize a one-day festival filled with art and creativity. The festival will feature around 15 acts, with doors opening at 19:00 and concerts starting at 20:00. The entrance fee is 60 DKK, and the evening will conclude around 3 am.
