

A great way to raise awareness of an important issue. Keep up the great work.

Agree. Ros.

- Two girls came especially to see the caravan after only being able to see it for 10 minutes at Elam School of Fine Arts.

→ Probably one of my favourite exhibitions. The caravan format is awesome and there is enough interesting work in here to keep you around for a while to think / talk / engage. Also excellent accessibility, wouldn't be afraid to encourage my non-art educated friends to come along. Emily

Amazing show. Awesome seeing art used as a political / educational / environmental tool as it should be! Incredibly engaging & thought provoking. Such a successful colab. Caravan is a brilliant exhibition-space → constantly moving / in flux mirroring the political & environmental dialogue. Thanks to Tai for bring it to us! Looking forward to the rest of your social change / political exhibitions coming up in Elam
