if so, which?		

If you want a language place for:
Eu-citizen please attach a copy of your passport - Non EU-citizen please attach a copy of your residence and work permits.

Date: _____ Signature (mother/father) _____

Guidance

Nursery

In the City of Copenhagen it is the registration time that decides the placement on the individual waiting list. The first registered child will be the first child to be offered a nursery/day care place. The child has to be at least four months at the registration date.

You can register your child for a maximum of two nurseries or two day care areas (a day care area = a district) or one nursery and one day care area.

If you wish day care, please write the wanted district in the address box. If you register your child for day care, the child will be registered for day care with several children automatically if this offer is available in the district.

Pladsanvisningen can tell you about waiting lists for the individual institutions and day care areas and can also inform you about how many places are expected to become available at the institutions in the near future. If you choose to change to another waiting list, it is the new registration date that will decide your child's placement on the waiting list.

Date of need

Your child will be offered a place when he/she is at the top of the waiting list, but not earlier than the date you have entered as the date of need.

Kindergarten

Children going to a nursery/day care are automatically registered for a kindergarten. Children can be moved to a kindergarten from the age of two years and ten months. You can register your child for a maximum of three kindergartens. Your wishes are meant as a guide. If several parents want the same institution, the oldest child will be the first to receive an offer. However, Pladsanvisningen cannot guarantee that your child gets a place at the institution wished but will try to do their utmost to respect your wishes.

English-language groups

If you're expats who live and work in Denmark on a non-permanent basis, your child will be eligible for admission to a group in a Danish day-care offer in which the everyday language will be English. Your municipality of residence must be Copenhagen.

Brothers and sisters

If your child has brothers and/or sisters at the kindergarten, your child will get a place at the same institution if there is a place available at the time wished. In integrated institutions, however, the nursery children have a priority to available kindergarten places. Brothers and sisters cannot be considered until the child is two years and ten months old. Remember to register your child for the institution of his/her brothers and/or sisters.

New residents and citizens having been moved

If you move to the municipality or move within the municipality, you can use a reserved place on condition that there is a distance of at least four kilometres between your new home and the institution your child has been registered for or admitted to.

Pladsanvisningen can inform you about the number on the waiting list of the reserved places at the individual institutions. If the child is starting in a kindergarten, he or she will get a place by age.

Custody

Only parents holding custody of a child can apply for registration at a day care offer. In case of joint custody you must agree upon the registration. If the child lives with other persons than the person holding custody, a copy of the foster permit with the foster parents' names and address must be enclosed.

Institutions open over the weekend

If you want to register your child for an institution that is open over the weekend, please contact Pladsanvisningen.

Important!

Send the filled-in form electronic or to Pladsanvisningen. Within ten days you will receive a confirmation of the registration. This confirmation is your proof of the registration. If you should not receive a confirmation, please contact Pladsanvisningen as soon as possible.

Join digital post

You can join digital post and receive all mail from the City of Copenhagen as digital post.

Guarantee list

If you have an acute care problem, you can enter your child's name on the guarantee list. The guarantee list guarantees your child a place within two months. The available places on the guarantee list are places in either day care or nursery.

Your child can be registered on one specific waiting list as well as on the guarantee list. If you have registered your child for two specific day care offers, you must replace one of the day care offers by a registration on the guarantee list. Registration on the guarantee list. Always get further information at the Pladsanvisningen before entering your child's name on the guarantee list.

The Danish personal data act

The information you have given on this form will be registered in the institution system of the City of Copenhagen. The information is registered in order to keep the waiting list of children up to date. Once registered you are under the Danish personal data act (Act no 429 of the 3rd of May, 2000) entitled to

- demand insight into the information treated and its purpose
- object to the treatment of information
- demand verification/annulment/ blocking of information
